# Building Wealth & Ownership for Generational Success

## What is Real Estate?

Real estate refers to land, buildings, homes, and other properties that can be owned, sold, or rented for profit.

✓ Residential Real Estate → Homes, apartments, condos, manufactured homes.

✓ Commercial Real Estate → Businesses, stores, offices, warehouses.

✓ Vacant Land → Undeveloped land that can be built on or used for farming.

Why It Matters: Owning real estate gives you control, stability, and an asset that can increase in value over time.
